

Can a Disinfectant Be Less Toxic Than Vinegar And Still Kill Germs?

In nature, plants produce germ-killing 'essential oils' to protect themselves from invading microbes, similar to how our bodies produce antibodies for our protection against disease. Benefect is a revolutionary blend of these antimicrobial extracts, particularly from the herb Thyme. Traditional synthetic chemicals use quaternary ammonia or chlorine to kill germs, however, using the essential oils from plants allows Benefect to achieve an unprecedented Efficacy & Safety profile. To put it simply, Benefect is a 'plant immune system' in a bottle.

It's About Thyme!®

Do You Worry About The Toxicity Of The Antimicrobials You Use To Kill Germs?

Benefect's botanical active ingredient is identified by public health authorities as having no known adverse affects to human health or the environment. Benefect was reviewed for toxicity by Health Canada for all routes of exposure which include: inhalation, ingestion, skin irritation, skin sensitization and eye irritation.

Benefect surpasses Health Canada's germ killing requirements for hospital disinfectants. The ingredients are categorized as GRAS (Generally Recognized As Safe) and as Direct Food Additives by the Food & Drug Administration (FDA).

Just Spray & Walk Away!™

Health Canada Registered to Kill Over 99.99% of Germs

No Rinse or Wipe Required

No PPE Required

The First & Only Botanical Disinfectant

Where Can I Use Benefect?

Benefect is ideal for use in restoration sites: water damage, sewage back up, mould remediation, fire restoration and trauma scene decontamination. Effectively eliminates odours produced by microorganisms. Suitable for use in commercial, medical and residential settings.

Now listed in Xactimate using code: WTR>GRMB

FEATURES	BENEFITS	VERIFICATION
Government Registered Disinfectant	All label claims are approved by Health Canada. Kills over 99.99% of bacteria, mould & fungal spores.	Health Canada DIN 02242474
Broad Spectrum Efficacy	Intermediate Level Disinfectant *Kills over 99.99% of: Bacteria (Gram +ve & -ve) Fungal Spores HIV-1 (Human Immunodeficiency Virus) Mycobacteria (TB) Odour-causing microorganisms	Health Canada Label
No Rinse or Wipe Required (Even on Food Contact Surfaces)	No harmful residue that must be removed. Save an entire labour step & save money. Finish jobs faster. Reduce your liability. No PPE required.	Health Canada Label MSDS Bureau of Chemical Safety CFIA S432
Unprecedented safety profile	Food Grade Ingredients. LD50 (Oral, Rat) of >14,000 mg/kg (Less toxic than vinegar). Ingredients listed as Generally Recognized As Safe or as Food Additives by the FDA. Non-hazardous by OSHA/WHMIS criteria. EPA Category IV Toxicity for all routes of exposure: Inhalation, Dermal, Eye & Ingestion. (Safest rating allowed.) Non-flammable, non-corrosive, non-reactive. Mildly anionic.	Toxicity & Chemical Analysis Health Canada Label MSDS Bureau of Chemical Safety CFIA S432
No Warnings on the Label and No PPE Required	Reduced liability. The only Botanical Disinfectant in North America with no warnings, first aid, precautionary statements, special handling or PPE requirements on the label. The sensible choice for employees & clients.	Health Canada Label MSDS
Ready To Use Formula	Consistent efficacy performance, every time. Eliminates complex dilution instructions. No water hardness testing required for product performance. No temperature restrictions. Control portions. Consistent health & safety profile.	Health Canada Label
Environmentally Certified	Made from botanical, pure, renewable and sustainable sources. No synthetic fragrances, dyes, ammonia or chlorine. No aquatic toxicity. Readily biodegradable. No V.O.C.s	Ecologo ECP05029 (CCD-166) Patented Worldwide EPS 1/RM/24 OECD 301D
Excellent Marketability	Preferred disinfectant for ANY green cleaning program. Differentiate your business as the environmentally-friendly choice.
